

# Early Atlantic City, NJ Ham Radio History

The cover of Radio News from the Atlantic City 1915 Ham club. The sketch shows the Tuckerton Radio Station, built by Germany before World War I.

Early ham newsletters and magazines are a wonderful way to collect and learn about

early Amateur Radio history. The following excerpts are from *Radio News*, a ham club newsletter dated

September

3, 1915 from Atlantic City, New Jersey. I was very lucky to come across this early document.

**Jerome Haas,  
3RQ, circa 1915.**

## RADIO NEWS

Published the first and third Friday of each month.  
Offices at 2011 Atlantic Ave and 145 St. Charles Place.  
Jerome Haas, Editor, Earl Godfrey, Associate Editor.  
Advertising rates upon request.

## Local Amateur News

Mr. Neveling has purchased a DeForest audion and is having remarkable results.

Mr. Doughty's aerial has fell down several times recently but is up again. He has also burned out his transformer.

Mr. Albertson has erected his aerial again at his home in Pleasantville and will be ready for business soon.

3IF and NJ will be back at 145 St Charles Place after the fifteenth of September.

Mr. Seymore's station, 3IT, is hampered by having the front of the aerial only 8 feet above the roof. CS was afraid the pole would fall in the street and someone mistake it for slivers.

Mr. Cook has established a station at Little Beach. They will use a 3- inch coil. Everybody listen for CM.

Do not use linoleum on the floor of your station if you do much transmitting. Messers Jeffreys and Haas were badly shocked recently on account of the ground wire making circuit thru the linoleum.

In all probably the Pier station [the Million-Dollar Pier on the Boardwalk] will be closed after the first of October. Here's hoping old man Neptune leaves it there for next summer.

In later issues there are updates on stations, news of a 350-foot aerial at Haas' station, and listing of new hams and members. It appears that there were about 26 members by January 1916. It is also rich with hand drawn schematics of various stations and new designs for antennas. And on the last page of every issue there are advertisements for slide tuners, galena crystals for detectors and large slinky-type antennas. These enterprising teenagers made almost everything themselves.

Jerome Haas went on to Drexel Institute [now Drexel University] and into an Engineering career. I found his photo in a 1920 issue of *The Radio Amateur*, a small magazine from the Midwest. At the time he was Technical Editor. He was resigning to become a married man.

## **HOW I STARTED IN WIRELESS**

*By J. Hass (September 3, 1915)*

I have been interested in wireless since 1908 and from that year on, I purchased *Modern Electrics* and read many articles in it that interested me. Yet, I did not care to install a set. I knew of no amateurs in this city. [Atlantic City, New Jersey] In 1910 during a short visit to Newport, R.I., I saw the government station and determined to put up a station of my own. While the Marconi station was on the air I became acquainted with Mr. Lessenco and by watching him send press in the evening I learned the code. I bought a cheap set in Philadelphia in the fall of 1912. The only stations I could hear were AX and a few ships. I improved my set rapidly after that. At first I had only 2 wires 50 ft. long.

Mr. Lessenco gave me a letter of introduction to Mr. Jeffries and in March 1913 I joined the Association. After that I put up two spiral aerials and made a 4 slide-tuning coil. During the summers of 1914 and 1915 I worked in the station of the Jeffries Young Antenna Co., on the pier, which gave me some experience. In January 1915 I took the examination at the Philadelphia Navy Yard and was given 3RQ for a call letter.

This about finishes my story with the exception that I have planned for a fine receiving set this Fall and intend to install a high power station at the Drexel Institute in Philadelphia, for which we have asked for a special license.

## Conclusion

If anyone has more information on Jerome Haas or any other early southern New Jersey hams, I would be interested in hearing from you. Check out my Web Page for some additional Atlantic City, NJ area history at [www.k2tqn.com](http://www.k2tqn.com)
